### Water Heater Rebates

1. Copy of building permit and water heater receipt must accompany rebate request.
2. Water heater must be a minimum of 40 gallons.

### Heat Pump Rebates

1. Customer must provide documentation regarding unit SEER rating. Must be a minimum of 16 SEER.
2. Customers must have heat pump installed by a certified, City of Rock Hill-licensed heating and air contractor.
3. The contractor is required to obtain a mechanical building permit and the City will inspect unit installation prior to issuance of rebate.
4. Rebates not available to customers applying for heat pump loans.
5. Smart Switch must be installed prior to receipt of rebate.
6. Smart Switch must remain on heat pump for a minimum of one year.

Note: Please allow 4-6 weeks for processing rebate. Rebate program is subject to change at the discretion of the Rock Hill City Council.
